

# Drive Buddy™

ENJOY THE RIDE!

Dear Buyer,

Thank you very much for ordering our Baby 1st Drive Buddy! The universal car Smartphone and tablet holder that lets you attach your device securely and easily to the headrest.

We hope you enjoy using Baby 1st's Drive Buddy and have many fun and enjoyable family outings with it!

We would appreciate if you could leave feedback to us after you have received our package, that way we can be assured that your product has been received and all is well.

If you have any queries or problems, please contact us directly to the email address at the bottom of this page and we will solve straight away to make you a happy customer (-):

## Instructions for use of Drive Buddy™ Attaching the permanent velcro strip to the car

- 1 Wrap the Velcro strip around the headrest and tighten firmly, can be placed horizontally or vertically according to your preference.  
**Attaching the rear side (mobile/tablet)**
- 2 Take one of the two clasps provided and place against left side of Velcro or to the bottom part (according to the way the Velcro was attached: horizontally or vertically).
- 3 Attached the second clasp to the device you wish to attach to the headrest  
SMARTPHONE: place the clasps in the corners of the device.  
TABLET: place the clasp the tightly around the frame.
- 4 Attach the device to the Velcro that is attached to the headrest at a vertical angle and push the clasps that are attached to the headrest in order to put pressure to the device.
- 5 Now press the second clasp to the headrest with the device attached as firmly and as safely as possible.

TIP: after mounting using our Universal car Smartphone and Tablet holder for the first time there will be no need to set up your Drive Buddy™ again if used by the same device. Please tighten the existing clasps in order to hold your device.
